

Local Notices to Mariners

LNTM No.	012/2019
Subject	Cruise Ship – Security/Safety Zone

In the interests of safety and security a safety zone will be established around cruise ships manoeuvring and at anchor in the Little Russel.

Vessels in the Little Russel are requested to give the cruise ships a wide berth, approaching no nearer than **200m** and avoid creating wash which could endanger the tendering operation.

Vessels should only enter the zone for collision avoidance, to avoid immediate danger or with prior authorisation.
